

Daniel Ramirez

Senior DevOps Engineer

Sofia, Bulgaria | github.com/dxas90 | dxas90@gmail.com

I am a Computer Science specialist with a passion for software development and software automation. I have more than 7 years of professional experience. As a software developer, I have mostly worked on the web, but have also worked on desktop projects. For the last 4 years, I have focused on DevOps technologies. When I am not managing a system, I like to do some web applications as a hobby and play some games.

WORK EXPERIENCE

FINANCIAL TIMES SOFIA

Senior DevOps Engineer | Jul 2020 - Present

An exciting opportunity to join the Product & Technology department, of a growing business and a globally recognized brand. Working in distributed teams in London and Sofia, delivering innovative technology solutions and operate world-class platforms to grow the Financial Times strategic business models. And having the autonomy to select the tools and technologies to build and operate services for FT brand.

EMPIREDEV LLC FULL-TIME

System Admin & DevOps | Nov 2017 - Nov 2019

Empire Dev LLC is a technology company dedicated to the sole reason of providing technical expertise to its clients in the area they need it most. Its areas of expertise are varied and include software development, online marketing, business intelligence, data mining, data migration and manipulation, lead generation, API development and integrations, infrastructure development and maintenance, and android and web development.

The beauty of Empire Dev LLC is that it works in the background, adjusting to the processes of its clients, while bringing forth a wealth of knowledge and strong processes for software development, lead generation and quality control. Our focus at Empire Dev LLC is to help partners with 0 knowledge in technology create a thriving online business. We've helped build successful companies from negative income to millions in revenue. Some of our partners have been successfully acquired by other businesses, while others have made it to INC 500 while using our products and support.

devops linux bash aws golang jenkins docker ci/cd terraform
